Implementing Help

Handling Errors

Long Running Commands

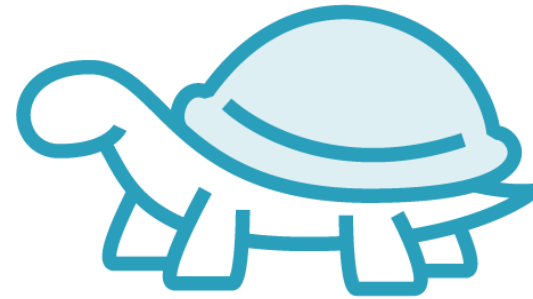

Command Execution Speed

The plan

Every developer's intention is to write fast executing code.

The reality

Server load and network traffic can get in your way.

Additional Server Commands

Additional Commands

Status

Returns basic server status information.

DiskSpace

Displays the amount of free space on server drives.

Summary

Implemented help command

Learned how to handle errors

Supported long running commands

Added additional server commands

- Status
- DiskSpace
